

Who can join?

Organisations that

- have piloted an **innovation** that is ready to move towards **scaling**
- are seeking **solutions** to **strengthen** risk-mitigation and **resiliency** in their supply chains
- can contribute **experience, partnerships, or operational presence** on the ground
- are willing to explore **co-financing** opportunities for future **implementation**

We are looking for ideas to scale in the following focus areas:

- Human Rights & Access to Remedy
- Living Income, Living Wage
- Climate-Resilient & Regenerative Agriculture
- Deforestation-Free Supply Chains
- Digital Public Infrastructure and Traceability Solutions
- Gender Equity & Social Inclusion

Promising ideas should demonstrate:

- **Added value:** the idea noticeably increases efficiency or reduces risk in an agricultural supply chain and has catalytic potential
- **Feasibility:** there is a clear pathway to implementation, and the organization involved has relevant experience
- **Innovation:** the idea addresses problems in agricultural supply chains that have not been addressed before or do so in a more effective way than previous approaches

Why participate?

- Gain technical insights from tested approaches
- Explore scaling opportunities with GIZ and peers
- Early orientation on cooperation instruments and funding pathways
- Gain access to GIZ's vast global network in partner countries
- Funding for scoping / feasibility studies
- A space to build or join consortia with like-minded partner

Call for Ideas

SASI Learning & Scaling Labs

How to get involved?

1. Express your interest in joining the Learning & Scaling Labs through this [web-form](#)
2. Submit your pitch deck by April 8 if you would like to present a scaling idea
3. Selected participants will be invited to the kick-off meeting in Bonn on 6 May (from 11 am onwards)
 - Setting the scene and objectives
 - Presentation of selected scaling pitches
 - Discussion and feedback
 - Identification of synergies and formation of thematic scaling groups
4. Follow our virtual sessions and ad-hoc working groups throughout 2026 (time requirement: 3-4 days)
