NEXT

The coffee industry is a global market that relies on the collaboration of numerous stakeholders, from coffee growers to millers, warehousemen, exporters, roasters, and retailers. In this interconnected web, the flow of information is vital for ensuring transparency, traceability, and sustainability throughout the value chain

# Contribution 1- Interoperability

NEXT

- 
- Interoperability:

DIASCA will play a big role in ensuring seamless information exchange among stakeholders by sensitizing the value chain players on the importance of standardizing data formats and interfaces to promote transparency and traceability.

# Contribution 2 - Data Integration

NEXT

## 2. Data Integration:

DIASCA promotes integration of data systems along the various nodes of the coffee value chain, providing stakeholders with comprehensive and up-to-date information for informed decision-making and collaboration.

# Contribution 3 - Information Accessibility

NEXT

3. Information Accessibility: DIASCA will contribute to the development of platforms that make relevant information easily accessible to stakeholders, empowering them to make informed decisions and drive positive change.

# Contribution 4 - Traceability and Transparency

NEXT

4. Traceability and Transparency:  
DIASCA implementation will allow for creation of a robust digital system that will be essential to track coffee from farm to cup, enabling precise traceability and building trust and relationships between producers and the end consumers.

# Contribution 5 - Knowledge Sharing and Collaboration

NEXT

5. Knowledge Sharing and Collaboration:  
DIASCA will facilitate knowledge sharing among stakeholders, fostering innovation, learning, and continuous improvement along the coffee value chain.
